JOHN MARK R. DALUMPIENES

Lusok Santa Cruz Marinduque | +63 956 713 5817 | dalumpienes.johnmark@marsu.edu.ph

PROFESSIONAL SUMMARY

An enthusiastic Information Systems undergraduate with a solid foundation in software engineering, backend programming, database management, and system analysis. Skilled in Python, JavaScript, Java, and PHP with specialized expertise in MySQL, SQLite, MongoDB, Supabase, and RESTful API/system integration. Dedicated to creating innovative, data-driven solutions and scalable backend architectures for real-world challenges.

EDUCATION

- **Bachelor of Science in Information Systems |** Marinduque State University, Santa Cruz, Marinduque Expected graduation: 2028 | Current standing: 3rd Year
- **Relevant coursework:** Systems Analysis and Design; Database Management; Web Development; Business Process Management; Human Computer Interaction; IT Project Management.

TECHNICAL SKILLS

- **Backend & Core Programming:** Python, JavaScript, PHP, Java, C#, SQL
- **Database Management & Architecture:** MySQL, SQLite, MongoDB, Supabase, Relational & Non-Relational Database Design
- **API & System Integration:** RESTful API Design, Backend Architecture, Client-Server Communication, Data Synchronization
- **Development Tools & Methods:** Git, GitHub, Visual Studio Code, Database Administration Tools
- **Other Technical Skills:** Systems Analysis, Backend Optimization, Database Query Optimization, System Documentation

PROJECTS EXPERIENCE

SMART-MARSU: Design and Development of an Integrated Campus Information Ecosystem and Executive Decision Support Dashboard for Marinduque State University – Santa Cruz Campus

Academic / Course project | 2025 | Role: Backend & Database Developer

- Developing an ongoing campus Enterprise Resource Planning (ERP) project and executive dashboard, with core backend modules—including centralized data management and automated workflows—already completed and successfully implemented to streamline administrative and student services for MarSU.
- Designed database schemas and implemented robust RESTful APIs to ensure reliable client-server communication and cross-platform synchronization across university departments.

TRAINING AND CERTIFICATIONS

- **Base Build MIMAROPA | MarSU & Base PH (2025)**
- **Avalanche University Connect | Avalanche & OKX Wallet (2025)**

ACHIEVEMENTS

Dean's Lister | Marinduque State University | 2024-2026

ASHLY NICOLE B. ROLDAN

Kasily Santa Cruz Marinduque | +63 936 354 1830| roldan.ashlynicole@marsu.edu.ph

PROFESSIONAL SUMMARY

Dedicated Bachelor of Science in Information Systems undergraduate and experienced student leader (President of CICSSO) with a strong foundation in project management, web and mobile application development, database management, and systems analysis. Specialized in AI API integration, prompt engineering, and offline-first architecture. Demonstrates strong leadership, project coordination, and problem-solving abilities through academic projects and organizational responsibilities. Passionate about creating accessible and innovative technology solutions that address community challenges.

EDUCATION

- **Bachelor of Science in Information Systems |** Marinduque State University, Santa Cruz, Marinduque
  Expected graduation: 2028 | Current standing: 3rd Year
  Relevant coursework: Systems Analysis and Design; Database Management; Web Development; Business Process Management; Human Computer Interaction; IT Project Management.

TECHNICAL SKILLS

- **Project Management & Leadership:** Agile/Scrum, Project Coordination, IT Project Management, Stakeholder Management
- **AI & System Integration:** AI API Integration, Prompt Engineering, RESTful API Integration, System Integration
- **Core Programming & Web Technologies:** Python, JavaScript, HTML, CSS, C#
- **Tools & Platforms:** Git, GitHub, Figma, Visual Studio Code
- **Other Technical Skills:** Systems Analysis and Design, Requirements Analysis, Project Documentation, Quality Assurance

PROJECT EXPERIENCE SMART-MARSU: Design and Development of an Integrated Campus Information Ecosystem and Executive Decision Support Dashboard for Marinduque State University – Santa Cruz Campus

- *Academic / Course project | 2025 | Role: Project Manager & AI/Integration Lead*

- Leading the ongoing development of SMART-MARSU, a campus Enterprise Resource Planning (ERP) project and executive dashboard, where core modules—including centralized data management and automated workflows have been completed and successfully implemented to streamline university services.
- Managed project timelines and led system/AI integration efforts to ensure seamless communication between system components and deliver an intuitive administrative interface.

LEADERSHIP AND ORGANIZATIONS

President | College of Information and Computing Sciences Student Organization (CICSSO) | 2026-2027

- Led the overall planning, execution, and strategic direction of student activities and organization programs.
- Directed executive officers and represented the student body in key administrative and campus meetings.
- Oversaw student organization initiatives, operations, documentation, and stakeholder communications.

TRAINING AND CERTIFICATIONS

- **Base Build MIMAROPA | MarSU & Base PH (2025)**
- **Avalanche University Connect | Avalanche & OKX Wallet (2025)**

Dean's Lister | Marinduque State University | 2024-Present

- Recognized for academic excellence and consistent high academic performance.

PROFESSIONAL SUMMARY

An ambitious undergraduate in Information Systems with a solid background in web development, mobile applications, database management, and systems analysis. Experienced in React Native, Expo, and UI/UX design, alongside proven leadership and project coordination skills gained through academic and organizational endeavors. Dedicated to creating accessible, innovative, and user-centric technology solutions that address community challenges.

EDUCATION

- **Bachelor of Science in Information Systems |** Marinduque State University, Santa Cruz, Marinduque
  Expected graduation: 2028 | Current standing: 3rd Year
  Relevant coursework: Systems Analysis and Design; Database Management; Web Development; Business Process Management; Human Computer Interaction; IT Project Management.

TECHNICAL SKILLS

- **Mobile & Frontend Development:** React Native, Expo, JavaScript, HTML, CSS, Offline-First Architecture, Responsive UI/UX Design
- **Programming Languages:** JavaScript, Python, C, C++, C#
- **UI/UX & Design Tools:** Figma, Prototyping, User-Centered Interface Design, Mobile Testing
- **Development Tools & Methods:** Git, GitHub, Visual Studio Code
- **Other Technical Skills:** Systems Analysis, Frontend Performance Optimization, Application Testing, Technical Documentation

PROJECT EXPERIENCE SMART-MARSU: Design and Development of an Integrated Campus Information Ecosystem and Executive Decision Support Dashboard for Marinduque State University – Santa Cruz Campus

Academic / Course project | 2025 | Role: Lead Mobile & Frontend Developer

- Spearheaded the mobile and frontend development for SMART-MARSU, an ongoing campus Enterprise Resource Planning (ERP) project and executive dashboard, where core modules including centralized data management and automated workflows are already completed and successfully implemented to streamline university operations.
- Designed and integrated responsive client interfaces to ensure seamless user experience and cross-platform synchronization for university stakeholders.

TRAINING AND CERTIFICATIONS

- **Base Build MIMAROPA | MarSU & Base PH (2025)**
- **Avalanche University Connect | Avalanche & OKX Wallet (2025)**

AWARDS AND ACHIEVEMENTS
